COURSE:

BSc (B-SCI)

Other

ADD

Subject Code	Subject Name	Semester	Points
SCIE30001 https://handbook.unimelb.edu.au/view/current/scie30001	Science Research Project		12.5

Area of Study	Contact
Botany	Associate Professor Andrew Drinnan, <i>School of BioSciences</i>
Chemistry - <i>students should consult with the School of Chemistry about enrolment in either SCIE30001 or the alternative subject CHEM30013 Chemical Research Project</i>	Professor Richard O'Hair, <i>School of Chemistry</i>
Earth Sciences	Professor David Phillips, <i>School of Earth Sciences</i>
Ecosystem and Forest Sciences	Dr Chris Weston, <i>School of Ecosystem and Forest Sciences</i>
Genetics	Associate Professor Alex Andrianopoulos, <i>School of BioSciences</i>
Geography	Professor Barbara Downes, <i>School of Geography</i>
Zoology	Professor Mark Elgar, <i>School of BioSciences</i>

Other Departments and Schools may also offer research projects (students should check with the relevant department or school)

DISCLAIMER

The SCIE30001 Science Research Project is intended for students who have achieved excellent results in the discipline related to the project (normally an average of at least 75% in relevant second and third year level subjects). Please note that approval of the home student centre is also required.

- I have discussed the potential projects with staff in the relevant Department/School
- I have provided academic results to show an average of at least 75% in relevant second and third year level subjects
- I have read and understood the requirements for the project as specified

Please return this form to your home student centre
